

M E T W E S T

INDUSTRIES PVT. LTD.

COMPANY PROFILE

- Manufacturer & Exporter Of Precision Metal Components
- 10+ Years Of Production Expertise
- Zinc Die-Cast Parts, Brass Fittings & Machined Components
- Serving Sanitaryware, Plumbing, Hardware, Electrical & Automotive Sectors
- Skilled Workforce With Modern Manufacturing Processes
- Strong Quality Control & Continuous Improvement
- Focus On Long-Term, Transparent Partnerships

ABOUT US

ABOUT US

ABOUT US

- To Be Recognised Globally As A Trusted And Leading Supplier
- Follow Ethical, Transparent, And Customer-Focused Business Practices
- Deliver Professional Service, Timely Support, And Customised Solutions
- Drive Continuous Innovation And Operational Efficiency
- Integrate Sustainable, Eco-Friendly Technologies
- Contribute Positively To The Industry, Community, And Environment

VISION

QUALITY

Our Paramount Commitment

At MetWest Industries, quality is the cornerstone of our operations. Every stage of production, from raw material selection to final inspection, follows stringent quality control procedures supervised by our team with high skillset.

Our facilities are equipped with advanced testing systems, including dimensional accuracy checks, non-destructive testing, and detailed visual inspection.

Through ongoing process improvement and adherence to international standards, we ensure our products consistently exceed customer expectations.

WHY CHOOSE METWEST

Advanced Zinc Die-Casting And Precision Metal Fabrication.

Reliable Delivery Schedules With Commitment To Deadlines.

Skilled Workforce Ensuring Consistent Quality.

Wide Product Range For Multiple Industrial Sectors.

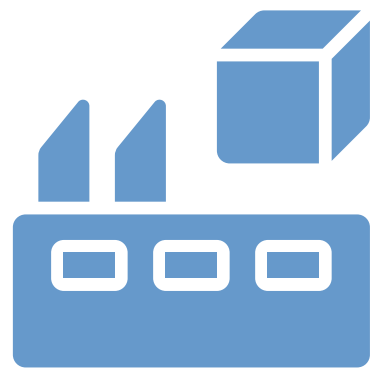

Strong After-Sales Support For Long-Term Satisfaction.

International-Standard Quality Control Systems.

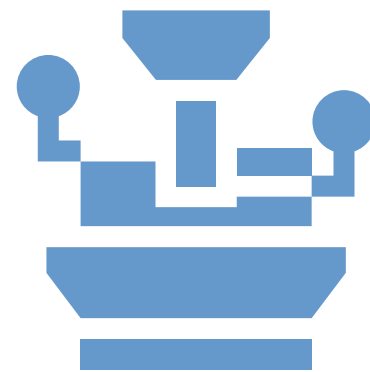

Fully Equipped Jamnagar Facility For High-Volume & Custom Manufacturing.

Competitive Pricing With Flexible Payment And Packaging Solutions.

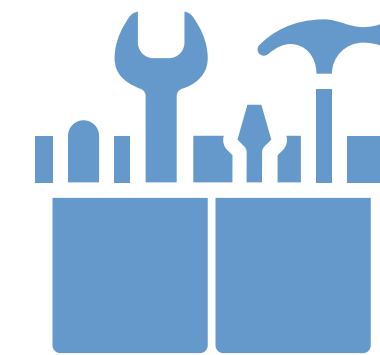

KEY FACTS & MANUFACTURING CAPABILITIES

Advanced Multi-Metal Production: Infrastructure designed for zinc, brass, and stainless-steel components, integrating precision engineering and sustainable practices.

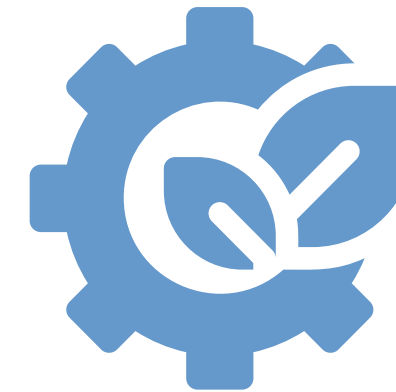

High-Capacity Die Casting: Pressure Die Casting Machines from 25–200 tons, producing components from 1 g to 2 kg, supported by 20+ grinding and 30+ polishing machines for consistent finishing.

In-House Tool Room: Complete control over machining, die maintenance, and rapid tooling development, strengthened by CNC and VMC capabilities for intricate precision work.

Integrated Surface Finishing: Fully equipped electroplating plant for Copper, Nickel, and Chrome with a dedicated quality lab performing water tests, quenching tests, and performance checks.

Sustainable Manufacturing: On-site Effluent Treatment Plant (ETP) for responsible water recycling and a facility powered by 80% solar energy, ensuring an eco-efficient production ecosystem.

INDUSTRIES WE SERVE

- ✓ Sanitary Ware & Bathroom Fittings
- ✓ Pipe Fittings
- ✓ Electrical Sectors
- ✓ Automotive & Automobile Parts
- ✓ Gas Fittings & LPG Systems
- ✓ Hardware & Construction Components
- ✓ Industrial Machinery & Applications
- ✓ Surgical Instrument Components
- ✓ Precision Engineering Components

OUR PRODUCTS

SANITARY FITTINGS

Materials Catered: Zinc and Brass

Description:

- Precision-Engineered Using Corrosion-Resistant Alloys
- Hygienic, Durable, And Leak-Free
- Easy Maintenance With Long Service Life
- Suitable For Water Supply, Drainage, And Fluid Systems

Applications:

- Bathrooms & Kitchens
- Food & Beverage Processing
- Healthcare & Pharmaceutical Facilities
- Water Treatment & Plumbing Systems

PIPE FITTINGS

Materials Catered: Zinc and Brass

Description:

- Zinc Fittings: Corrosion-Resistant And Cost-Effective For Plumbing & Gas Systems
- Brass Fittings: Stronger, Durable, And Heat-Resistant For High- Pressure/ Hot-Water Use
- Designed For Long Service Life And Consistent Performance

Types:

- Elbows
- Tees
- Reducers
- Compression Fittings
- Caps
- Valves
- Couplings
- Bushings

Applications:

- Plumbing & Gas Systems
- Water Supply Lines
- Drainage Networks
- Hvac Installations
- Compressed Air, Hydraulic & Pneumatic Systems
- Irrigation And Industrial Fluid Handling

MARINE FITTINGS

Materials Catered: Copper Alloy

Description:

- High-Grade Brass & Stainless-Steel Fittings
- Corrosion-Resistant, Strong, And Precision-Engineered
- Reliable For Harsh Marine Environments

Applications:

- Fuel & Water Lines
- Deck/Hull Fittings
- Boat Plumbing
- Hydraulic & Pneumatic Marine Equipment
- Offshore Platforms & Marine Engines

MOULDING INSERTS

Materials Catered: Brass

Description:

- Precision-Engineered Inserts Providing Strong, Long-Lasting Threads In Plastic Parts
- Ideal For Injection Moulding And Thermoplastic Applications
- Enhance Fastening Strength And Ensure Consistent Performance Across Industries

Applications:

- Electrical/Electronic Housings
- Consumer Appliances
- Industrial Machinery Components
- Automotive Plastic Parts
- Medical Device Assemblies

ELECTRIC COMPONENTS

Materials Catered: Zinc and Brass

Description:

- Electrical Components And Terminals Engineered For Reliable Power Connectivity
- Includes Connectors, Lugs, Terminal Blocks, Splices & Accessories
- Designed For Superior Conductivity, Safety & Long-Term Durability
- Ensures Efficient Current Flow In Wiring, Circuit Protection, And Distribution Systems

Applications:

- Power Distribution Panels
- Control Systems
- Automotive Wiring
- Industrial Machinery
- Electrical Switchgear
- Renewable Energy Systems
- Consumer Appliances

GAS FITTING PARTS

Materials Catered: Zinc and Brass

Description:

- Made From High-Quality Materials For Secure, Leak-Proof Connections
- Suitable For Residential, Commercial, And Industrial Gas Distribution

Product Range:

- Valves
- Connectors
- Regulators
- Gas Fitting Components

Applications:

- Lpg & Natural Gas Pipelines
- Gas Appliances & Burners
- Industrial Gas Systems
- Residential & Commercial Installations

AUTOMOBILE FITTINGS

Materials Catered: Zinc and Brass

Description:

- Made From Durable, Heat- And Corrosion-Resistant Materials
- Ensure Secure Connections Under Demanding Automotive Conditions
- Designed For Long-Term Durability And Safety Across Vehicle Systems

Product Range:

- Hose Fittings
- Fuel Line Connectors
- Brake Line Components
- Fasteners
- Precision Automotive Parts

Applications:

- Vehicle Assembly, Maintenance & Repair
- Fuel, Brake, Cooling & Hydraulic Systems

FIRE & SAFETY FITTINGS

Materials Catered: Zinc and Brass

Description:

- High Durability With Strong Resistance To Corrosion, Pressure, And Heat
- Designed For Long-Lasting, Reliable Performance In Demanding Safety Environments

Product Range:

- Hose Couplings
- Nozzles
- Adapters
- Connectors
- Valve Components

Applications:

- Firefighting Equipment
- Sprinkler Systems
- Hydrant Assemblies
- Fire Extinguishers
- Industrial & Commercial Safety Installations

PRECISION COMPONENTS

Materials Catered: Brass

Description:

- Engineered With High Accuracy To Meet Exact Specifications
- Manufactured Through Advanced Machining With Strict Quality Control
- Ensure Tight Tolerances, Consistent Performance, And Long Service Life
- Ideal For Applications Requiring Superior Precision And Reliability

Product Range:

- Custom-Machined Parts
- Inserts & Shafts
- Bushings & Spacers
- Fasteners
- High-Precision Metal Components

Applications:

- Aerospace & Automotive
- Medical Devices & Instrumentation
- Industrial Machinery
- Electronics
- Robotics
